Overview

In the wake of the #MeToo movement, it seems that now more than ever the Church is called to witness to the lives of young women. *Finding Voice* is a retreat to empower young women in the church to find their place in the church and the world. Together we will examine the ways in which female voices have been heard throughout time and process how women can be each other's greatest allies in lifting up one another's voices.

We will also cover some difficult Scripture passages that will help young women to discuss issues within the #MeToo movement from a faith perspective, including: the believability of the female voice, consent, and stereotypical views of women in the Bible.
